- Electricity and district heating
- Safety first – prepare for the afternoon

Health and safety is our top priority

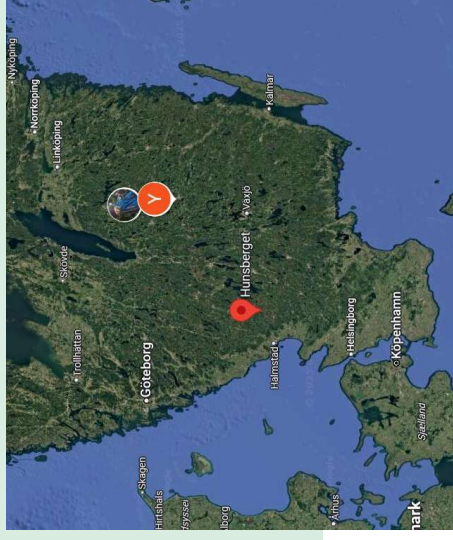

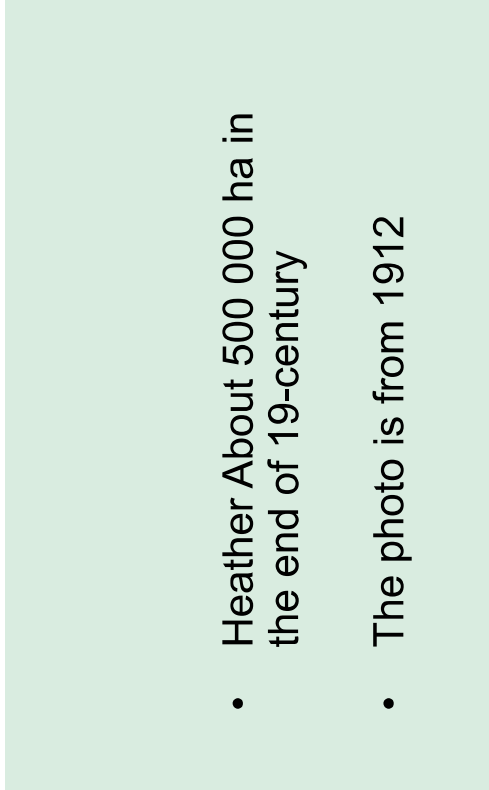

Every second of the day should count when it comes to safety, security and taking care of each other.

Together we increase safety.

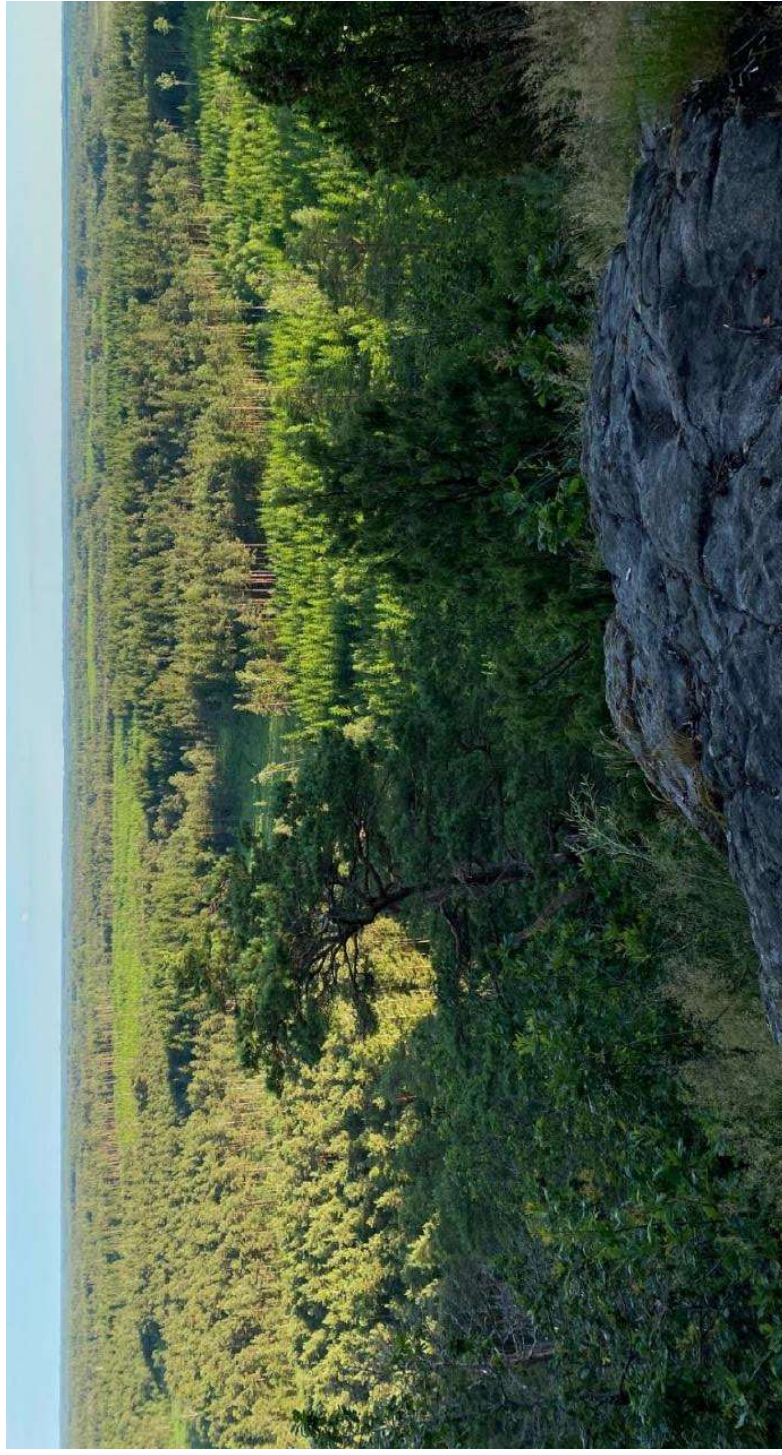

Hunnsberget and Ljunghedar

- Heather About 500 000 ha in the end of 19-century
- The photo is from 1912

View from Hunnsberget

- Photo from today (from the place of the red arrow on the previous photo).
- The vast areas dominated by heather 110 years ago is now forest from which many can benefit.

Cultural heritage

Very strong legislation in Sweden – all objects older classified as cultural or ancient remaining's must be cared for and not damaged in any operations.

Example – charcoaling site. A site in action – late 1800's or early 1900's.
